

No matter who you are, you're welcome here.

New Orleans East Hospital is one of the newest hospitals to serve our region. Since opening our doors in 2014, we've brought our area access to a full-service hospital for the first time since Hurricane Katrina.

Our 80-bed facility provides complete surgical, intensive and stroke care, diagnostic imaging, laboratory, rehabilitation, sports medicine, 24-hour emergency services as well as a state-of-the-art diabetes center and multi-specialty clinic to meet the needs of a growing community.

Takeisha C. Davis, MD, MPH
Chief Executive Officer
New Orleans East Hospital

“ At New Orleans East Hospital, every life matters and we are dedicated to building a healthy community by providing compassionate, quality healthcare close to home.”

Our unique history and growth

2012

In January 2012, construction began on the new hospital.

2014

In April 2014, the City of New Orleans signed a cooperative endeavor agreement with LCMC Health to serve as the New Orleans East Hospital's managing partner.

On July 20, 2014, New Orleans East Hospital opened, nearly nine years after Hurricane Katrina.

2017

In April 2017, the multi-specialty New Orleans East Clinic opened, followed by the Rhesa & Alden J. McDonald Jr. and Sue Ellen & Joseph C. Canizaro Diabetes Center opening in November 2017.

Locations & facilities

Located on Read Blvd., New Orleans East Hospital has a six-story East Tower, formerly a part of the Pendleton Memorial Methodist Hospital and a new three-story Patient Care Pavilion.

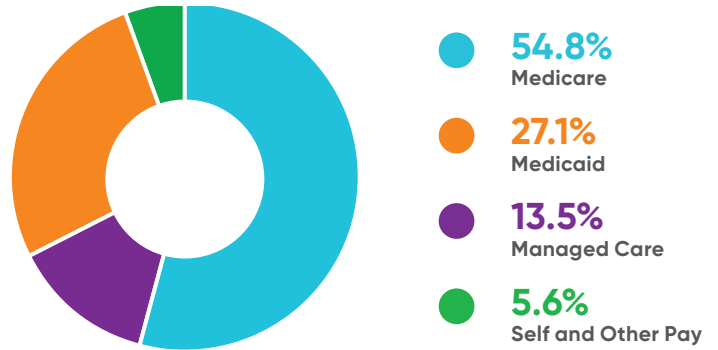

New Orleans East Hospital provides complete surgical services, diagnostic imaging, laboratory services, patient education, and social services in both inpatient and outpatient environments. The hospital's 21-bed Emergency Department offers emergency and fast track services.

In 2017, New Orleans East Hospital partnered with Townsend Recovery Center to bring behavior health services to the area. In addition, the newly opened Rhesa & Alden J. McDonald Jr. and Sue Ellen & Joseph C. Canizaro Diabetes Center offers team based comprehensive care and support to those affected by diabetes.
