Our unique history and growth

2012

In January 2012, construction began on the new hospital.

2014

In April 2014, the City of New Orleans signed a cooperative endeavor agreement with LCMC Health to serve as the New Orleans East Hospital's managing partner.

On July 20, 2014, New Orleans East Hospital opened, nearly nine years after Hurricane Katrina.

2017

In April 2017, the multi-specialty New Orleans East Clinic opened, followed by the Rhesa & Alden J. McDonald Jr. and Sue Ellen & Joseph C. Canizaro Diabetes Center opening in November 2017.

Locations and facilities

Located on Read Blvd., New Orleans East Hospital has a six-story East Tower, formerly a part of the Pendleton Memorial Methodist Hospital and a new three-story Patient Care Pavilion.

New Orleans East Hospital provides complete surgical services, diagnostic imaging, laboratory services, patient education, and social services in both inpatient and outpatient environments. The hospital's 21-bed Emergency Department offers emergency and fast track services.

In 2017, New Orleans East Hospital opened the Rhesa & Alden J. McDonald Jr. and Sue Ellen & Joseph C. Canizaro Diabetes Center offering team based comprehensive care and support to those affected by diabetes.

Awards and accreditation

- Primary Stroke Center certification from The Joint Commission since 2019
- Hospital accreditation from The Joint Commission, 2020 last onsite survey
- Get with the Guidelines Silver Plus Stroke Quality Award, 2020
- The Joint Commission
- American Diabetes Association
- American Heart Association
