

No matter who you are,
you're welcome here.

New Orleans East Hospital is an award winning hospital servicing residents in New Orleans East and surrounding areas. Since opening our doors in 2014, we've brought access to a full service hospital to our community. This includes offering the only Level 3 Primary Stroke Center and Maternal Fetal Medicine service in New Orleans East.

Our 40-bed facility is a three-time award winning Hospital of the Year (60 beds or less), providing complete surgical, stroke care, diagnostic imaging, laboratory, diabetes center, maternal fetal medicine care, 24-hour emergency care, and a multi-specialty clinic to meet the needs of a growing community.

Takeisha C. Davis, MD, MPH
Chief Executive Officer
New Orleans East Hospital

“ At New Orleans East Hospital, every life matters and we are dedicated to building a healthy community by providing compassionate, quality healthcare close to home.”

Our unique history and growth

2012

In January 2012, construction began on the new hospital.

2014

In April 2014, the City of New Orleans signed a cooperative endeavor agreement with LCMC Health to serve as the New Orleans East Hospital's managing partner.

On July 20, 2014, New Orleans East Hospital opened, nearly nine years after Hurricane Katrina.

2017

In April 2017, the multi-specialty New Orleans East Clinic opened, followed by the Rhesa & Alden J. McDonald Jr. and Sue Ellen & Joseph C. Canizaro Diabetes Center opening in November 2017.

2023

In May 2023, the Maternal Fetal Medicine clinic opened, providing specialized obstetrical care, including the diagnosis and treatment of fetal abnormalities, as well as maternal medical complications that may arise during pregnancy.

2025

In 2025, New Orleans East Hospital expanded its services by opening a new infusion center, providing specialized care closer to home.

Locations and facilities

Located in the heart of New Orleans East, New Orleans East Hospital embodies over 200,000 square feet of dedicated space to healthcare services. It is comprised of a six-story East Tower, infrastructure that was formerly a part of the Pendleton Memorial Methodist Hospital, and a newly constructed, three-story Patient Care Pavilion.

The facilities provide complete surgical services, stroke care, diagnostic imaging, laboratory services, maternal fetal medicine care, patient education, and social services in both inpatient and outpatient environments. The hospital's 21-bed Emergency Department offers emergency care in minutes.

In 2017, New Orleans East Hospital opened the Rhesa & Alden J. McDonald Jr. and Sue Ellen & Joseph C. Canizaro Diabetes Center offering team based comprehensive care and support to those affected by diabetes. Six short years later in 2023, the Maternal Fetal Medicine clinic opened. This service is making significant impact in closing the gap to providing quality maternal care to moms in New Orleans East and neighboring parishes. In 2025, New Orleans East Hospital expanded its services by opening a new infusion center, providing specialized care closer to home. This new infusion site is equipped with state-of-the-art technology and staffed by a team of experienced professionals to ensure patients receive the highest quality of treatment in a comfortable and convenient setting.
